

CITY OF DURHAM | DURHAM COUNTY
NORTH CAROLINA

Date: February 1, 2016

To: Thomas J. Bonfield, City Manager
Through: Keith Chadwell, Deputy City Manager
From: Lisa Miller, AICP, Senior Planner
Subject: Watts-Hillandale Preservation Plan Update

Summary. The City and County, through the Planning Department's work program, have initiated a consolidation of, and update to, the criteria used by the Historic Preservation Commission (HPC) to review proposed changes to locally-designated historic properties (local historic districts and local historic landmarks). An update to the Watts-Hillandale Preservation Plan is required as part of this project to remove the existing criteria and reference the new Historic Properties Local Review Criteria document.

Recommendation. That the City Council approve the Watts-Hillandale Preservation Plan Update.

Background. The local review criteria used by the Historic Preservation Commission and Planning staff in the review and issuance of certificates of appropriateness in the Watts-Hillandale Local Historic District are currently found within the Watts-Hillandale Preservation Plan. As part of the Historic Properties Local Review Criteria Consolidation and Update the preservation plan needs to be updated to remove the existing local review criteria from the plan and to reference the new Historic Properties Local Review Criteria document. In addition, a few minor corrections and revisions have been made to the plan and the district properties have been re-surveyed (to determine contributing or non-contributing status) with this update.

Advisory Body Recommendations. The Historic Preservation Commission unanimously recommended approval of this item at their October 6, 2015 meeting with no recommended changes. The Planning Commission recommended approval of this item at their November 10, 2015 meeting (9-2 vote) with no recommended changes.

Issues. No issues have been identified with this item.

Alternative. The City Council could vote to deny the Watts-Hillandale Preservation Plan, or to approve with changes to the update.
